Product of the Month Give your Skin a BOOST!

Sothys Gommage Peel

The soft peeler Gommage is extremely effective in removing the outer layer of dead cells, refining, brightening and smoothing the complexion. Not only does exfoliation allow greater absorbency of your creams but is a boost in the deeper layers of the skin to improve metabolic function, including collagen and elastin production. Gentle and nonabrasive, suits all skin types.

Perfect for removing the devitalized winter layer and bringing a new Spring vibrance to your skin. Generally used twice a week.
